Colleen Ceh Becvar - Elder Care Coordinator

It happened unexpectedly - the phone call from my sister telling me of dad's stroke. Totally unprepared and anxious about how his care needs would be met, I began the journey I am still on today.

If you are a hands-on caregiver, or someone who is overseeing care, we offer this practical presentation about the role of the caregiver, identifying needs, and getting the tools you need to offer the best care for your loved one!
