Consider your sources!

Many clients ask about doing their own Will online and most clients think their estate plan needs are “simple.” Since we rarely see a truly “simple” plan, we created this flyer to show some of the differences between do-it-yourself planning vs. planning with an experienced law firm to guide you.

	Online Forms	Strohschein Law Group
Cost	Less than \$500.	\$2,000 - \$4,000. Complete Estate Planning for an individual or couples may include: a Will, Revocable Trust, Powers of Attorney for Healthcare, Property and HIPAA. If you just need your Powers of Attorney documents, they will be prepared for \$600. Consultation fee may be applied to agreed legal work.
Value	Basic documents, not specifically tailored to meet your needs and concerns.	We will prepare the documents you need as opposed to you guessing which ones you’ll need. What if you miss one?
Plan	No direction, no one to answer your questions.	Our team will walk you through each document with detailed explanation. We plan for the unexpected and present you with questions and solutions for your consideration.
Validity	Ambiguous language often leads to a much higher chance of probate litigation, which can cost a family \$10,000 or more to resolve even if the family isn’t fighting.	Your documents will be created to work within the state and federal laws. Powers of Attorney for Healthcare, Property and a HIPAA Release will be prepared specifically for you. Most importantly you will be protecting yourself and your loved ones.

Your life isn’t a template!

Don’t let the decision to take a short cut now pave a path of uncertainty later, which may compromise your quality of life. There are too many issues to be considered for your plan and we think your hard earned living deserves a plan created specifically for you.
